LISTA LUCRĂRILOR

Ing. Daniela Claudia Vesa

[1] M. Greconici, C. Blaj, S. Muşuroi, D. Vesa, "The electromagnetic field around a high voltage 220 kV electrical overhead line and the influence on the biological systems", Scientific Buletin of the "Politehnica" University of Timişoara, pp. 261 – 264, November 2005.

[2] I. Vetreş, M. Greconici, D. Vesa, "A theorem of reciprocity for the electro-kinetic state taking into account the magnetic field", Book of abstracts, 14th International Symposium on Power Electronics – Ee 2007, Novi Sad, Serbia, pp.28, (extended on CD), November 2007.

[3] D. Vesa, M. Greconici, "The complex dielectric constant measurement using the cavity perturbation method", Scientific Buletin of the "Politehnica" University of Timişoara, pp. 717 – 722, November 2007.

[4] I. Vetreş, D. Vesa, M. Greconici, "The electric resistance in the galvanomagnetics devices", Proceedings of Extended Abstracts, 9th International Conference on Applied Electromagnetics, Nis, Serbia, pp.63-64, (extended on CD), September 2009.

[5] M. Greconici, Z. Cvetkovic, A. Mladenovic, S. Aleksic, D. Vesa, "Analytical numerical approach for levitation force calculation on a cylindrical bearing with permanent magnets used in an electrical meter", 12th International Conference on Optimization of Electrical and Electronic Equipment, pp.197-201, Braşov, Romania, May 2010.

[6] D. Vesa, "The magnetic force deduction in the interface between ferrofluids using a limit process", Buletinul Ştiinţific al U.P. Timişoara seria Matematică - Fizică, Tom 55(69), 2, pp.82-85, 2010.

[7] D. Vesa, M. Greconici, "Physical Mechanism of the Magnetic Liquid Raising Around a Vertical Conductor with a Current Flow", International PhD Seminar on Computational Electromagnetics and Optimization in Electrical Engineering, pp.124-127, Sofia, Bulgaria, September 2010.

[8] M. Greconici, G. Madescu, D. Vesa, "Some FEM contributions to the electrical machines", 11th Workshop on Optimization and Inverse Problems in Electromagnetism, pp.141-142, Sofia, Bulgaria, September 2010.

[9] D. Vesa, M. Greconici, "About some raising effects of the magnetic liquids placed in a stationary field", Simpozionul Naţional de Electrotehnică Teoretică, Bucureşti, Romania, December 2010.

[10] D. Vesa, D. Daba, M. Greconici, "About the force localization exerted by the magnetic field on the ferrofluids. The Quincke's effect", Brazilian Journal of Physics, March 2011, (under review).

[11] D. Vesa, "The effective forces exerted by the macroscopic magnetic field in ferrofluid", Zilele Academice Timişene - Simpozion Electrotehnică şi Electroenergetică, Timişoara, Romania, May 2011.

[12] D. Vesa, "FEM modelling of the magnetic field in the air gap of Weiss electromagnet", Buletinul Ştiinţific al U.P. Timişoara seria Matematică - Fizică, Tom 56(70), 2, pp.89-95, 2011.

[13] D. Vesa, I. Şora, D. Daba, "Some Raising Effects Of The Magnetic Liquids Around Vertical Conductors With A Current Flow", Revue Roumaine des Sciences Techniques - Série Électrotechnique et Énergétique, 2012, (under review).

[14] C. Blaj, D. Toader, D. Vesa, "The Transient Regime in the Electric Circuit of an Electro Hydraulic Valve", 16th IEEE Mediterranean Electrotechnical Conference, pp. 201-204, Medina Yasmine Hammamet, Tunisia, March 2012.
[15] D. Vesa, M. Greconici, "Analytical Study and Numerical Modeling of Magnetic Forces which Act on Single Gas Bubble Rising in Magnetic Fluid", 13th International Conference on Optimization of Electrical and Electronic Equipment, Braşov, Romania, May 2012, (in press).
