

## LISTA LUCRĂRILOR

**Ing. Tamas Dencsak**

- [1] C. Bob, **T. Dencsak**, L. Bob, “Sustainability of buildings”, Proceedings of 4<sup>th</sup> WSEAS International Conference „Advances in Energy Planning, Environmental Education and Renewable Energy Sources”, Tunisia, pp. 66 – 77, 2010.
- [2] **T. Dencsak**, C. Bob, L. Bob, “Épületek fenntarthatósága”, Proceedings of 14<sup>th</sup> International Conference on Civil Engineering and Architecture, Sumuleu Ciuc, Romania, pp. 71 – 77, 2010 (in Hungarian).
- [3] C. Bob, **T. Dencsak**, “Building Sustainability. Civil Engineer Approach”, Lambert Academic Publishing, Saarbrucken, Germany, pp. 66, 2010.
- [4] C. Bob, **T. Dencsak**, I. Balcu, “Sustainability of RC structures”, Proceedings of *fib* Symposium, „Concrete Engineering for Excellence and Efficiency”, Prague, Czech Republic, pp. 1033–1037, 2011.
- [5] **T. Dencsak**, C. Bob, “Consideration of CO<sub>2</sub> uptake through carbonation in the life cycle assessment of RC structures”, Proceedings of 7<sup>th</sup> CCC Congress „Innovative Materials and Technologies for Concrete Structures”. Balatonfüred, Hungary, pp. 199 – 200, 2011.
- [6] **T. Dencsak**, C. Bob, I. Balcu, “Tests for the determination of carbon dioxide uptake by concrete carbonation”, Proceedings of *fib* Symposium, „Concrete Structures for Sustainable Community”, Stockholm, Sweden, pp. 59 – 62, 2012
- [7] C. Bob, **T. Dencsak**, “RC structures a solution for sustainable development”, Proceedings of IABSE Conference „Global Thinking in Structural Engineering: Recent Achievements”, Sharm el Sheikh, Egypt, pp. 164 – 165, 2012.
- [8] **T. Dencsak**, C. Bob, C. Tanasie, I. Balcu, “Environmental benefits of concrete structures”, Proceedings of 12<sup>th</sup> International Multidisciplinary Scientific GeoConference SGEM2012, Albena, Bulgaria, pp. 369 – 375, 2012.
- [9] **T. Dencsak**, C. Bob, I. Iures, “Sustainability evaluation of construction works using original model”, Proceedings of 12<sup>th</sup> International Multidisciplinary Scientific GeoConference SGEM2012, Albena, Bulgaria, pp. 833 – 839, 2012.
- [10] **T. Dencsak**, C. Bob, “Rating tools for the evaluation of building sustainability”. Proceedings of IALCCE 2012: The 3<sup>rd</sup> International Symposium on Life-Cycle Civil Engineering, Vienna, Austria, pp. 1762 – 1769, 2012.
- [11] D. Stoian, **T. Dencsak**, S. Pescari, I. Botea, “Life cycle assessment of a passive house and a traditional house - Comparative study based on practical experiences“, Proceedings of IALCCE 2012: The 3<sup>rd</sup> International Symposium on Life-Cycle Civil Engineering, Vienna, Austria, pp. 1665 – 1672, 2012.
- [12] C. Bob, **T. Dencsak**, C. Tanasie, I. Balcu, “Contribuții privind evaluarea capacității betonului de a lega CO<sub>2</sub> prin carbonatare”, Revista Romana de Materiale (acceptată pentru publicare).
