

THE FACULTY OF: MECHANICAL ENGINEERING

COMPETENCES OF UPT GRADUATE IN:

Fundamental domain: Engineering Sciences

Master's degree study programme:

„INTEGRATED ENGINEERING“

(Master's study field: Industrial engineering)

Nr. crt.	Competences
C1	Knowledge required for integrated and collaborative products and processes design and project management.
C2	Developing the implementation capacities and skills for products and processes quality improvement methods, maintenance ensuring and products recycling.
C3	Developing the capacities for planning, optimal leading and management of the products and manufacturing systems.
