

THE FACULTY OF: MECHANICAL ENGINEERING

COMPETENCES OF UPT GRADUATE IN:

Fundamental domain: Engineering Sciences

Master's degree study programme:

„ POLYMERIC AND COMPOSITE PRODUCTS ENGINEERING ”

(Master's study field: Industrial engineering)

Nr. crt.	Competences
C1	Optimal design of products and molds to produce parts of polymeric and composites materials.
C2	Developing the abilities and skills to implement methods for improving the quality of polymer products.
C3	Developing the knowledge and abilities for analysis and design of advanced technical systems for optimal management of mechanical manufacturing processes.
