

THE FACULTY OF: MECHANICAL ENGINEERING

COMPETENCES OF UPT GRADUATE IN:

Fundamental domain: Engineering Sciences

Master's degree study programme:

„PRODUCTIVE WELDING PROCESSES IN PROTECTIVE GASSES”

(Master's study field: Industrial engineering )

Nr. crt.	Competences
C1	Capacity to develop, implement and control of high productive welding technologies.
C2	Capacity to design and control of advanced materials welds.
C3	Capacity to design, develop and exploitation of productive and ecological welding equipments with protective gasses.
C4	Research capacity.
