

## Erasmus report

Reasons why I chose Timisoara, city known as Little Vienna, as a place to spend my Erasmus semester is that I had heard that Timisoara would be an exciting and beautiful city with a good living quality and offers great travel opportunities. Studying in Timisoara gave me a chance to deepen my geodesic knowledge in the inspiring, creative, and cosmopolite environment of one of the biggest technical universities from Central and Eastern Europe. Moreover, my experience in Timisoara was extremely exciting, fun, and valuable for both my studies and overall general development. I got very good help from my Romanian buddy, who is volunteer in ESN. My Buddy helped me understanding the University system, assisted me in the registration for different courses, etc. My place at the student residence was organized by the University. The location of the residence was very good, just 15 min from the city center on foot and also it was cheap. My Erasmus time in Timisoara was very enjoyable, I met a lot of new people from Timisoara as well as all over Europe, took my travel opportunities to neighboring cities and was able to improve my English skills. It takes some time to familiarize yourself with the new life, to get used to the language and to get to know new people, but it's worth. There are numerous opportunities to socialize and take part in fun activities either organized by universities or just happening in the cities in general. Most students also enjoyed travelling around the country. The exchange year was very well organized. All exchange students were well taken care of. Timisoara was a very nice and safe city to live in. I have many beautiful memories from my exchange semester there and, most importantly, I learned basic Romanian language and got many wonderful friends during that year. The nightlife of the city, having a great number of students, was quite alive, there were places to go out, eat, drink and have fun, with cultural events. Undoubtedly a city that I would definitely suggest to live in as a student!
