Introduction

Erasmus is an experience that allows to discover another way of life, other customs, to enrich our knowledge. Moreover, living in a foreign country is a very good way to learn the language through daily practice.

My report will present different aspects of my experience in Timisoara.

- Advantages of mobility.

- Disadvantages of mobility.

A-Advantages of mobility

Erasmus program has many positive aspects:

Firstly, there obviously has the practice of language in everyday life. But what I will remember most is above all human exchange; here I met a lot of people from different countries and cultures. Such as: in complexe I met students from Italy, France, Romania and turkie... However, we made more progress in terms the fluidity in grammar, vocabulary...

Secondly, program Erasmus has another positive part is facility to continue abroad studies with excellent conditions for example: when I arrived here in Timisoara easily I stayed in complexe and I went to university and I attended my courses at university and the good way how I did my training without difficulty; at level of papers I mean especially the (administrative procedures) as reason as this program is very organized.

B-disadvantages of mobility

Actually, I have lived in this experience, the positives more than the negative ones.

So, during my period here I did not like two cases:

On one hand, study at UPT was great, but the one thing which I didn't like is: some teachers talked Romanian language in (English lesson) with other students in the class.

On the other hand, other negative thing they explained some parts of the course using the recalls of previous semesters.

Conclusion

Erasmus program is an extraordinary adventure for students. They discover a new environment. And Erasmus offers a unique opportunity to discover other cultures across the country where students live and the other students also in exchange.

Furthermore for me, Erasmus program is unforgettable experience because it was extensive, rich.. also learned a lot of things thanks to this program which considered for me an added value in my personal life then my career professional.
