RESEARCH CENTER FOR MODELING, DESIGNING AND BEHAVIOR MONITORING OF THE HYDROTECHNICAL DEVELOPMENTS

GENERAL PRESENTATION

The center was set up in 2001 and certified by the Romanian Research Authority in Higher Education (CNCSIS certificate no. 99 / CC-C, 11 May 2001 and after that, again in September 2006).

The main research fields of the center lies generally on water engineering, having as subfields:

- Water constructional works
- Urban and rural sanitation
- Land reclamation an improvement arrangements.

Certificate

Based on the long experience of the researchers and the existing research infrastructure, the center is able to manage engineering projects in fields connected to water engineering.

MAIN ACTIVITIES

- managing research projects in water engineering
- design and technical assistance in Hydrotechnical structures
- water constructional works
- rivers regulation works
- waterways and harbors
- modern technologies in water engineering
- drinking and industrial water supply network and plants
- waste water treatment plants
- sewage network
- water biology and chemistry
- water quality monitoring
- numerical modeling in surface water and groundwater flow
- numerical modeling of the pollutants transport in groundwater
- land reclamation and improvement, irrigations and drainages
- rural sustainable development
- soil science studies and erosion controls
- polluted soils rehabilitation
- surveying, cadastre
- waste disposal sites design and monitoring

PROJECTS

RESEARCH TEAM

Man, T. E., A., Constantinescu L., Halbac-Cotoara, Z.R., Beilicci, E., Beilicci, R.

Efficient management of the wet down fields from trans-boundary area (Hungary-Romania)

Contract no.: 38/2008/1/2009
Value: 63.261 RON
Beneficiary: ANCS (NATIONAL AUTHORITY FOR RESEARCH)

Diversion of the drainage canal Hcn 953, (R45)

Contract no.: 134/26.11.2009
Value: 4.760 RON
Beneficiary: S.C. CARPATINA-FOREST S.R.L. TIMIȘOARA

Irrigation arrangement by aspersion in Pecica, Arad County, for an area of 41 hectares

Contract no.: 116/ 03.11.2009
Value: 2.500 RON
Beneficiary: I.F. HEDEȘAN

Constantin A.T., Lazăr Gh., Man T.E.

River regulation works in pipe drain pipe solution (Crihala River) in Severin city, Mehedinți County

Contract no.: 109/ 21.10.09
Value: 7.655 RON
Beneficiary: SC ALPHA PROPERTY DEVELOPMENT SRL

RESEARCH TEAM

Eles, G., Doandes, V., Popescu, D.

Complex surveying on Valiug, Timis-Trei Ape, Secu, and Gozna dams necessary for 2009 Report

Contract no.: BC 175/ 28.11.2008
Value: 15.000 RON
Beneficiary: TMK RESITA

RESEARCH TEAM

Mirel I., Man E. T., Carabeț A., Stăniloiu C., Florescu C., Podoleanu C., Gherman V., Girbaci A., Ștefănescu C., Olaru I.

Research Institute for renewvabe energies (ICER)- Biogas production branch

Contract no.: POS-CCE-A2-02.2.I-2007-1, I-2007-2
Value: 15.000 €
Beneficiary: ANCS (National Authority for Research)

RESEARCH TEAM

David, I., Man, T. E., Constantin, T. A., Carabet, A., Sumalan, I., Beilicci R., Beilicci E., Stefanescu C., Visescu, M.

Study on development strategy and integrated use of the Barzava complex hydrotechnical arrangements

Contract no.: 19/ 21.02.2008
Value: 30.000 €
Beneficiary: AC Management-Timisoara

RESEARCH TEAM

David I., Staniloiu, C., Eles G., Stefanescu, C., Iliuta, C.

Research and development in environment protection: Rainwaters and groundwaters in Timisoara city

Contract no.: 34/03.2008, 84/07.2009

Value: 61.800 RON

Beneficiary: Municipal Council Timisoara

RESEARCH TEAM

Bădăluță, M.C., Crețu, Gh., Man, T. E., Burtica G., Carabeț, A., Husaru, G., Alexoiaie, L.

Researches regarding monitoring of the pollutant emissives in the environment

Contract no.: 106/2009

Value: 50.000 RON

Beneficiary: SC Linde Gaz România SRL

House, 144 pages, ISBN 978-606-554-000-2 (published in Romanian)

PERSPECTIVES

- updating the European trends in water engineering and applying them to Romanian realities;
- ensuring technical assistance for the design groups and companies in order to provide water supply projects for small communities
- a complete inventory of the companies acting in the Romanian west side of the country regarding research demands and in this way to set up new research projects;
- studies, research and design for rehabilitation of the land reclamation arrangements;
- enlarging the international cooperation in the field of water engineering researches;
- further co-operation between our research center and other research centers from Iasi, Bucharest and Constanta Universities in the field of the groundwater management and its protection against pollution;
